The Pennsylvania State University – Smeal College of Business

May 2028

B.S. Accounting & B.S. Finance

EXPERIENCE

Enterprise Finance Intern, Highmark Health | Pittsburgh, PA

Summer 2026

- Supporting Enterprise FP&A with monthly reporting, forecasting, and close tasks
- Designing AI use case prioritization system with automation tools utilizing a 3-pillar prioritization model to auto-score and rank submissions for Enterprise FP&A AI investment decisions
- Spearheading 3-person case study team evaluating a multi-year financial sustainability plan while adhering to the Decision Quality framework

Analyst Intern, Rose Planning Group LLC | Erie, PA

September 2025 – December 2025

- Secured **\$150,000** in grant funding for clients through economic impact analyses and data-driven proposals and reports
- Built business intelligence dashboards with GIS software for economic insights and strategic planning

Associate Analyst, Intrieri Family Student Managed Fund | Erie, PA

January 2025 – May 2025

- Managed a portion of a **\$1.5M** student investment portfolio through equity research and delivering weekly stock pitches
- Utilized Bloomberg Terminals for market analysis, financial modeling, and macroeconomic research
- Applied asset valuation techniques (DCF, comparable company analysis, precedent transactions)

PROJECTS

Bill | Personal Project

April 2026 – Present

- Python-based algorithmic trading system executing multi-factor entry signals (RSI, MACD, Bollinger Bands, 200-day EMA) with volatility-adjusted position sizing via ATR
- Three-state Hidden Markov Model to classify market regimes and dynamically adjust risk exposure
- Layered kill switches and safety measures including ATR trailing stops, 5% session loss limits, and 15% max drawdown guards

Rom-Com | Hack Princeton Biotech Runner-Up (Regeneron)

April 2026

- Engineered an adaptive physical therapy platform with real-time body/hand tracking and personalized range-of-motion profiling (MediaPipe, Random Forest Classification)
- Implemented clinically backed Fugl-Meyers Assessment (FMA-UE) scoring with live guidance

Iris | YHack

March 2026

- Built AI-enabled safety goggles with computer vision to deliver real-time guidance for STEM labs
